The easiest way for all who want to update the drivers. It is based on driver database that needed to be updated. .[Systemic granulocytic chagomatosis (author's transl)]. The recent observation of two cases of systemic granulocytic chagomatosis (SG) was reported. The report concerns 7 cases of SG, characterized by a polymorphonuclear leukocyte leukocytosis with random spontaneous peripheral blood eosinophilia (50% of cases). Eight cases of idiopathic eosinophilia (IE) were also collected and compared with SG. A retrospective study was carried out on the clinical and hematological features of SG and IE. A striking similitude is found in the clinical and laboratory features. This unifying clinical and biological picture in these two groups is emphasized. The differential diagnosis with the Haemophagocytic Lymphohistiocytosis (HLH) syndrome was discussed. Clinical outcome was significantly better in the SG group than in the IE group.If you're on Mac, you're in luck: the much-anticipated Firefox 10 has finally landed for you to enjoy. Mozilla pushed out the desktop browser today on the Mac, Windows, and Linux platforms, adding a number of important improvements that take Firefox into the next era. In a blog post, Mozilla noted that the new browser will remind you to open a tab in the background when you quit. You can also print websites using the new Print Service in Firefox 10. The brand new Themes and Tabs panel gives you quick access to your recently used Firefox tabs and the ability to "apply a theme" to your browser. It's a quick way to spruce up your FF experience. The new tab selection has been tweaked. Firefox now keeps track of your most used tabs for easy access, so you can now hit Command-T and type in a website to jump right to your most frequented site. Firefox 10 supports the latest HTML5 features and WebGL, a quick graphics rendering technology that gives you the best possible 3D experiences on the Web. Open Canvas is a new experimental HTML5 web feature that will allow you to create and edit graphical documents on the web with the same simplicity and power of applications like Paint. You can now share your bookmarks, tabs, and history across the Web using a handy button in the toolbar. Developers can now "easily debug
